

Manufactured for life

We turn bathrooms into
personal living spaces

January 2023

We turn bathrooms into personal living spaces.

“To create bathrooms that put the quality of your life on a higher level, we keep testing our products over and over again – and thus constantly optimise our services for you.”

Living in line with the five elements.

Metal is strong and elegant. It stands for clarity and focus. It brings reliability and stability to your bathroom – and your life.

Wood embodies the power of growing. It represents activity and creativity. It brings inspiration and life to your bathroom.

Earth provides us with nutrients. It embodies balance. It gives grounding power to your individual living space.

Imēx

Water keeps everything alive. It is vivid, fluid and invigorating. It refreshes and makes you feel pure – every time you enter your personalised bathroom.

Fire gives warmth. It fuels your power and energy. It makes your bathroom your personal warm and cosy comfort-zone.

View the Imex Collection in our Virtual Showroom.

The Imex Virtual Showroom Experience is a very exciting tool to assist in bringing a bathroom design idea from concept to reality.

When entering our virtual environment on any smart device, you will be able explore our stunning collection of Imex products.

Within our Virtual Showroom, you will also be able to find additional information about the products including images, technical line drawings, and a product QR code.

QR Code... what does this do?

You can scan the QR code using a separate smart device camera; your phone/tablet will then display a 3D model of the product with a 360° view.

You will see an 'AR' logo in the top right of this product image, click this 'AR' logo and the product will then be in your own room!

Scan this QR code to visit the Imex Virtual Showroom.

You can also view individual collections on each range's introduction page.

Welcome to Imex smart world

Imex smart series gives the perfect integration of technology and aesthetics; improving lifestyle, and honouring beauty!

Cyclic descaling function

Manual addition of scale remover can ensure that the heating pipeline system is free of scale after working for a long time in a hard water environment, so as to maintain the heating efficiency.

12mm slim seat cover

By adopting a new ultra-thin structure design, the seat cover overall thickness is reduced to less than 45mm, and a single layer is only 12mm. Modelling is concise and fluent, in line with the current market trends.

One rotary knob control, easy operation

Side rotary knob control design integrates all smart functions on a minimalist knob, by rotating and pressing, it can easily achieves rear wash, lady wash and drying.

Instant heating

The toilet adopts an instant heating system, which guarantees constant water temperature, maintaining warmth, with no need to wait.

Rimless flushing structure

Ceramic base adopts the new rimless flushing structure, effectively eliminating the hygiene blind corner.

Introducing the Imex Smart Toilet

Intelligent Toilet Technology

Rear wash

You can adjust the water volume, water temperature and water pressure independently on rear wash function.

Self-cleaning sprayer

The self cleaning sprayer ensures a clean and fresh wash.

Drying

You can adjust the air flow capacity and temperature on drying function.

Detachable sprayer

The sprayer head can be disassembled freely to facilitate washing and keep clean.

Women wash

You can adjust the water volume, water temperature and water pressure on the women wash function.

Intelligent deodorization

The deodorization function will open automatically and provide fresh air when using the toilet seat.

Pre-wetting

Wetting the ceramics surface before using the toilet makes for a cleaner wash and uses less water.

Batteries required (not supplied):
1 x CR2032 3V battery for the rotary control.
2 x AAA batteries for the remote control.

Introducing the Imex Smart Toilet

One rotary knob control, easy operation.

Side rotary knob control design integrates all smart functions on a minimalist knob, by rotating and pressing, it can easily achieve rear wash, lady wash and drying; as well as regulating the position and flow of the shower spray and water temperature.

Details make the design

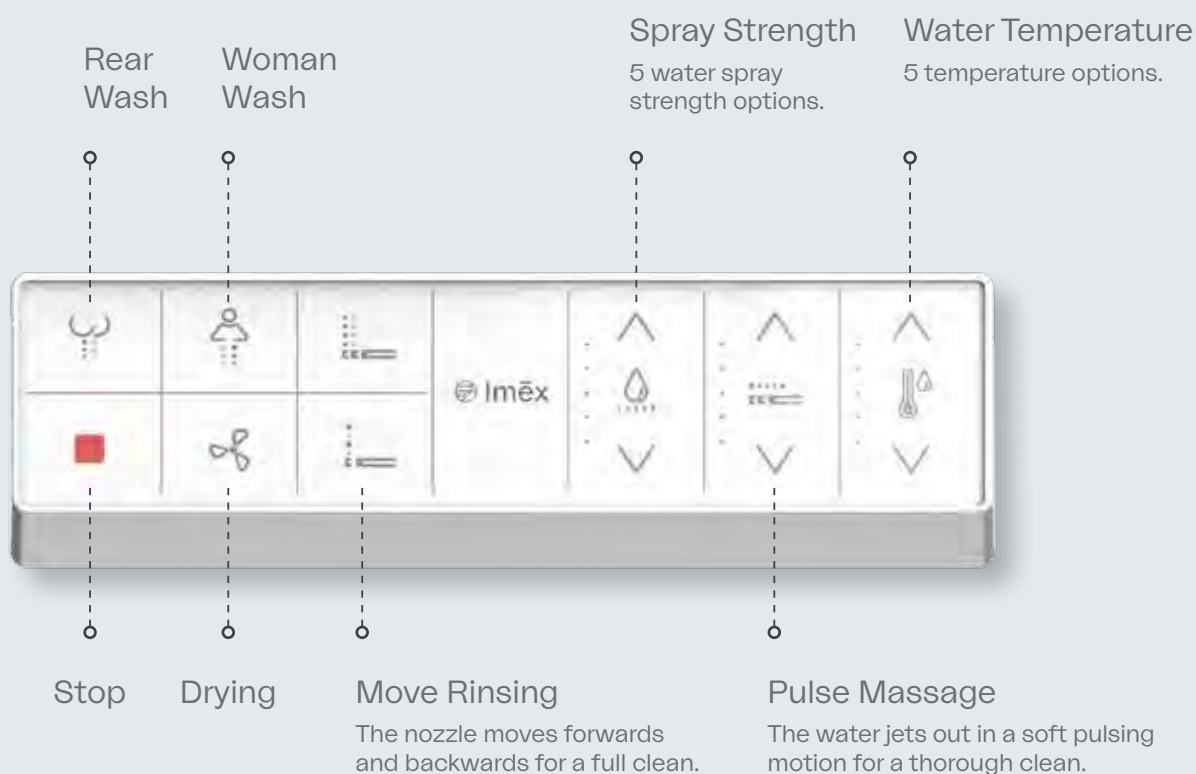

- Delicate feel, light, with comfortable operation
- Micromesh texture with intuitive touch
- Many features with one control

Remote control

Simple and clean design, functional operation at a glance; tilted design, ergonomics, make the controller more comfortable to use and understand.

Batteries required (not supplied):
1 x CR2032 3V battery for the rotary control.
2 x AAA batteries for the remote control.

BATHS

Imex baths are the ultimate premium bath. Hand finished in the UK to the most exacting of standards; they are durable, strong and with a reassuring substantial weight, are perfect for all bathrooms.

Imēx

Premiercast

Baths of Strength and Beauty

Why choose Imex Premiercast?

Imex baths are the ultimate premium bath. Hand finished in the UK to the most exacting of standards; they are durable, strong and with a reassuring substantial weight, are perfect for all bathrooms. Regardless of bath style chosen each bath is reinforced with extra rigidity, meaning the bath will not 'flex' when you step in.

The versatility of the materials used, the advanced manufacturing process and the quality of our craftsmanship means that Imex baths can be designed in beautiful sculptural shapes that suit the contemporary bathroom. The multicore layer design in Premiercast baths offer excellent heat retention, meaning your water stays hotter for longer for an energy saving, eco-conscious environment.

OUR GUARANTEE

We are so proud and confident in our Premiercast and Cast baths that we are delighted to offer a 25 year guarantee with each bath.

Information is also available on our website: www.imexceramic.co.uk

Premiercast

The Ultimate Premium reinforced acrylic bath

All Imex Premiercast baths are constructed by hand, we first form the bath from high quality 5mm acrylic, then add a full timber supporting frame to both the base of the bath and the underside of the rim. This creates a strong base to then apply by hand, 7 layers of fibreglass core matting. Between each layer we apply a resin bonding adhesive which, when dry creates a super strong encapsulated bonded core. Finally the bath is coated with a mix of resin and blue paint, which provides a smooth and superstrength final bonded surface.

Imex Cast

Reinforced acrylic bath

All Imex Cast baths are constructed by both hand and automated processes, for efficiency and speed. The first process is to form the bath from high quality 5mm acrylic, we then add a full timber supporting frame to both the base of the bath and the underside of the rim. This creates a strong base so we can then apply a Fibreglass sprayed layer, encapsulating the timber frame creating a durable and strong bath. Finally the bath is coated with a mix of resin and grey paint, which provides a smooth and strong final bonded surface.

The versatility of the premium materials we use in our Premiercast baths allows our designers to innovate and create sculpted, contemporary freestanding baths that are truly refined and timelessly elegant. From the strong clean lines of Ravine to the softly rounded organic shape of Essence and the classic design of Arco Slim, Premiercast freestanding baths will be the star attraction in your bathroom.

Immerse, bathe and relax

Arco Slim Freestanding Bath

Freestanding - RAVINE

Make a statement in your bathroom with the Ravine Premiercast bath. This unique freestanding back to wall bath comes in two sizes and will be the focal point of any stylish bathroom.

We are so proud and confident in our Premiercast baths that we are delighted to offer a 25 year guarantee with each bath.

ACRYLIC REINFORCED BATH PANELS

ACRYLIC SURFACE

All Imex bath panels are made using an acrylic sheet, ensuring a perfect colour match, offering a durable and easy to clean smooth finish.

REINFORCED FOR STRENGTH

The back of the panel is reinforced with a timber frame, encapsulated with fibreglass for maximum strength.

NO COLOUR FADING OR CRACKING

Unlike ABS panels, acrylic panels will remain stable in their colour and because they are so strong they will not crack or distort.

100% WATERPROOF

All panels can be trimmed to size and will remain totally waterproof.

Side Panel

Identify your water system

The type of water system within the home will affect your choice of product and the performance of the product.

Please refer to the diagrams to help identify your water system.

Gravity fed

Low Pressure

- Cold water storage tank in the loft
- Hot water cylinder
- No shower pump installed

Approximately per 1 meter distance between the bottom of the cold-water tank and the point of outlet equates to 0.1 bar pressure.

Imex PRESSURE RATING

LP
>0.2

Combination Boiler

Medium - High Pressure

- Combination boiler fitted for hot water on demand
- No storage tanks in the property
- No shower pump installed

Pressure is dependent on the type of combi-boiler plus mains pressure.

Combi-boilers produce a certain Litre Per Minute, ensure to check boiler output.

Imex PRESSURE RATING

LP >0.2 **MP** >0.5 **HP** >1.0

Imex pressure ratings as detailed throughout this brochure:

LP
>0.2

Suitable for LOW pressure water systems with a minimum pressure requirement of 0.2bar.

MP
>0.5

Suitable for MEDIUM pressure water systems with a minimum pressure requirement of 0.5bar.

HP
>1.0

Suitable for HIGH pressure water systems with a minimum pressure requirement of 1bar.

Pump Assisted

High Pressure

Positive Pump:

When a shower head is positioned below the cold-water storage tank, this is known as a 'Positive Head'. In this situation, a positive or standard booster pump can be used.

Negative Pump:

When the shower head is positioned above the cold-water storage tank, this is known as a 'Negative Head'. In this situation, a Universal or Negative head pump can be used.

Universal Pump:

A universal pump will work in both positive and negative situations.

Imex PRESSURE RATING

LP
>0.2

MP
>0.5

HP
>1.0

Mains High Pressure

- Unvented cylinder with an expansion vessel
- No cold water storage tank in the loft
- Stored hot water
- No shower pump
- Balanced Pressure
- Limited to Mains Pressure

Imex PRESSURE RATING

LP
>0.2

MP
>0.5

HP
>1.0
